RE: Recent COVID developments

Camden County Schools received confirmation today that we have a positive COVID-19 case at Grandy Primary School and a positive COVID-19 case at Camden Intermediate School. Those persons will remain at home for the duration of the illness. Due to federal health privacy laws, information regarding the individuals' identities cannot be released. Albemarle Regional Health Department has been contacted and will conduct follow-up contact tracing.

As a reminder, please wear your masks and take social distancing seriously: avoid crowds, stay at home, and maintain at least six feet distance from other people. Testing resources are available through ARHS at [252-338-WELL](tel:252-338-3333).

We will provide updates as necessary. Thank you for your continued support. By working together, Camden County Schools will get through these challenging times.

Joe Ferrell, EdD
Superintendent, Camden County Schools
